

Create your radio promotional images with AI in 4 steps

1

OPEN

Open chatgpt.com and start a new chat.

2

PASTE

Open PROMPT.txt, replace the text inside [BRACKETS] with your radio promo details, and paste it in your ChatGPT chat.

3

UPLOAD

Upload your files to ChatGPT: your featured image, your logo, the image background.png and reference.jpg from the assets folder in the pack.

4

CHECK & POST

Generate your promotional image, check the title, time, logo and crop. Export and publish.

QUICK TIPS

Keep it simple

- Use a sharp image with the subject to see
- Leave some breathing from around the person or object
- Use a clean transparent PNG logo image
- If AI changes the logo, pick the original on top afterward
- Keep the text short: one strong line + one useful line

EXAMPLES

RADIO SHOW TITLE

Monday to friday - 9AM to 12PM

RADIO EVENT TITLE

Saturday - 9PM - Downtown Studio

RADIO PODCAST TILE

NEW EPISODE - Friday at 6PM

FINAL CHECK

Before you publish

- ☐ Right format (depends if it is for Instagram, Facebook or others)
- ☐ Featured image still looks right
- ☐ Title and text correct
- ☐ Logo correct and not distorted
- ☐ No fake words, logos or details appeared

ONE DETAIL WRONG? DON'T START OVER

Use this prompt: 'Keep everything else unchanged. Only correct the wrong text/logo. Do not change the photo, crop or colors'
